PROFESSIONAL SUMMARY

Results-driven Java & SAP BTP Developer with 2.5+ years of hands-on production experience designing, developing, and deploying cloud-native enterprise applications. Deep expertise in SAP CAP/CAPM (Java), Core Data Services (CDS), OData V4, XSUAA, Destinations, and SAP HANA Cloud on BTP Cloud Foundry. Proven ability to resolve critical production issues, mentor teammates, communicate directly with clients, and deliver within Agile sprint cycles. Recognized by clients and peers for technical ownership and rapid problem resolution.

PROFESSIONAL EXPERIENCE

Junior Developer

AsInt, Inc. | Remote | Oil & Gas Enterprise

Feb 2024 – Present

- Designed and developed cloud-native services using SAP CAPM (Java): CDS data models, OData V4 service projections, association mappings, and Java handler logic deployed on SAP BTP Cloud Foundry runtime.
- Worked hands-on with SAP BTP services including XSUAA (authentication & authorization), Destinations, SAP Business Application Studio, and Cloud Foundry for enterprise-grade application delivery.
- Modeled and optimized complex database queries on SAP HANA Cloud using CDS views and CQL for high-availability enterprise workloads.
- Built and maintained RESTful API endpoints using Spring Boot and Microservices architecture, contributing to improved system modularity and reduced response times.
- Resolved critical production and non-production issues through root-cause analysis; implemented preventive measures to minimize downtime and maintain system reliability.
- Wrote and maintained unit tests (JUnit) and performance tests (Gatling), increasing test coverage and catching regressions before production deployments.
- Served as the communication bridge between clients and engineering — clarified requirements, documented API contracts and runbooks, and provided timely stakeholder updates.
- Implemented user stories end-to-end within Agile sprint cycles, consistently delivering features on time while maintaining code quality and documentation standards.
- Mentored junior colleagues on Java development best practices, debugging techniques, and SAP CAP/CDS architecture — awarded internal Coach Badge.
- Recognized with Client Appreciation Award for immediate resolution of critical production issues, preventing business disruption and ensuring continued system reliability.

KEY PROJECTS

AsInt Intelligence Suite — AsInt, Inc.

Java • Spring Boot • SAP BTP • SAP CAP/CAPM • CDS • OData V4 • SAP HANA Cloud • XSUAA • REST APIs

- Enterprise backend platform for the oil & gas industry tracking technical assets through assessments and maintenance workflows, ensuring operational safety and reliability.
- Built cloud-native services on SAP BTP using CAPM: defined CDS data models, OData V4 service projections, and handler logic in Java; deployed on SAP BTP Cloud Foundry runtime.

- Optimized complex SAP HANA Cloud queries using CDS views and CQL; resolved production issues to maintain high system availability and meet SLA commitments.

School Management System — Academic Project

[Java](#) · [Spring Boot](#) · [Servlets](#) · [HTML](#) · [CSS](#) · [JavaScript](#) · [Oracle SQL](#)

- Built a full-stack web application to automate school administration processes including student records, scheduling, and data reporting.
- Developed backend business logic using Java Servlets; designed a responsive UI and enhanced data operations with Oracle SQL query optimization.

TECHNICAL SKILLS

Languages	Java, SQL, JavaScript, HTML, CSS, SAP CAP CDS, CQL
SAP BTP	SAP BTP Cloud Foundry, SAP CAP/CAPM, CDS, OData V4, SAP HANA Cloud, XSUAA, Destinations, SAP BAS, SAP CALM
Frameworks	Spring Boot, Spring Suite, Microservices, RESTful APIs, OData Services, Maven
Databases	SAP HANA Cloud, Oracle SQL
Testing	JUnit (Unit Testing), Gatling (Performance Testing)
Tools	Postman, Git, Kibana, SAP CALM
Methodology	Agile (Scrum), Sprint Planning, Defect Management, Backlog Grooming

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science

Bharath Institute of Higher Education, India

Jul 2019 – Jul 2023

CGPA: 8.8 / 10

ACHIEVEMENTS & RECOGNITION

Client Appreciation Award

Recognized by clients for rapid resolution of critical production issues, preventing business disruption.

Coach Badge

Internally awarded for consistently mentoring junior colleagues on Java and SAP CAP/CDS best practices.
